

## GOOD FOOD FOR LOCAL COMMUNITIES

What's the recipe?

**When:** Wednesday 20 October, 10am – 4pm

**Where:** Bath Place at the Old Library, York Rd, Leamington Spa

Come along to our national information sharing and networking event for food co-ops, organic buying groups and CSAs, and other community food outlets. The aim of the day is to bring together community food initiatives from across the country to share information and explore new ideas.

You can join in a variety of small group workshops giving you the chance to ask specific questions of other similar food projects; and to discuss common issues you've encountered and how to resolve them.

Workshops will focus on different types of outlets, such as shops, mobile stores or markets; different types of produce; and different localities including schools, universities, rural villages and inner cities.

Workshop speakers include:

- Unicorn Grocery
- The Veg Van
- South Birmingham Food Co-op
- Ecoworks

This event is organised by Sustain and the Soil Association as part of the Making Local Food Work programme
