

Take the Planet Pledge

To sign up, you are asked to select the two mandatory and four voluntary commitments.

You are asked to complete the pledge fully by 2025, but take one significant action now, before signing, to get you on track. You might be doing some of this already, for example paying the Living Wage or selling verifiably sustainable fish. If so, well done, you can count that here as well. If you are a plant-based restaurant or setting, well done! You already meet the 2 mandatory commitments, all you have to do is select 4 optional commitments.

Mandatory commitments (choose 2)

Reduce Meat Servings

Reduce the amount of meat and dairy you serve by at least 25%

Switch to better meat and dairy

Source at least 25% of your meat and dairy from higher welfare, more environmentally friendly sources

Optional commitments (choose 4)

Achieve a Food for Life Served Here award

A Food for Life Served Here award means most food on the menu is freshly prepared from sustainably sourced ingredients

Becoming a Living Wage employer

Pay the Real Living Wage to your directly employed staff and contractors

Include two portions of vegetables in every meal

Achieve a sustainability accreditation or award
Work towards an accreditation or award that is right for you

Reduce food waste

Send zero food to landfill by reducing, redistributing and composting the remainder

Serve Fairtrade products

Serve Fairtrade tea, coffee and two other products

Serve only verifiably sustainable fish

Serve less fish and only certified sustainable (MSC/ASC certified or rated 1-3 by the Marine Conservation Society)

Serve seasonal produce

Serve at least 3 seasonal products on the menu at any time

Source locally

Source at least 3 products direct from local farmers, fishers or traders
