

## **Eat Somerset – Local Produce Suppliers of local food Information for retailers and caterers**

With the growing interest in local food, retailers are often being asked by their customers to supply local produce. This guide, produced by the Eat Somerset Project, run by Sustain and Somerset Food Links, provides details of local food producers in Somerset and areas close to Bristol and Bath who would be interested in supplying to the local retail, and in some instances, catering markets.

This information has been produced as a result of Eat Somerset's 'Meet the Buyers' event held in July 2007 and from recent surveys carried out in Bath and North East Somerset and North Somerset, with the aim of providing contact information for local retailers to source local produce.

We hope that it will be useful to you and would welcome any feedback on the content, layout for ease of use, any other local producers you are aware of who may like to be listed, and any success stories or difficulties in terms of developing local supply chains.

If you would like more information about the Eat Somerset project please contact:

**Alison Belshaw**  
**Eat Somerset Project Officer**  
**Sustain**  
**South Vaults**  
**Green Park Station**  
**Bath BA1 1JB**  
**Tel: 01225 787919**  
**Fax: 01225 750930**  
**alison@sustainweb.org**  
**www.sustainweb.org**

*Please note that Sustain: the Alliance for Food and Farming, has produced this information pack as part of the Eat Somerset project to promote the availability of local food to retailers, but does not endorse any specific products. The information has been compiled through work with local food producers. There are likely to be others who we have not yet had contact with. Please let us know of any changes or of other producers who might like to be listed in this directory.*

## **Eat Somerset**

### ***Taking steps towards sustainable, local food chains in south-west England***

From June 2006 – June 2008 Sustain is co-ordinating a food chain project in south west England in partnership with Somerset Food Links. The project is funded by the Esmee Fairbairn Foundation and aims to increase trading between producer groups in and around Somerset and independent food retailers in the county, and create new markets in Bristol and Bath.

#### **Aim**

The project aims to offer local food and drink producers in and around Somerset the opportunity to develop trading links with:

- Regional retail groups within membership of the Association of Convenience Stores; and
- New markets in the regional urban centres of Bristol and Bath, including retailers, street markets and public sector food providers.

#### **Activities**

The project will fulfil this aim by:

- Identifying food and drink producers who wish to develop their businesses through new trading contracts;
- Providing training and support to those producers to enable them to meet the quality standards and reliability criteria that retail contracts require;
- Facilitating trading links between the producers and the new market outlets in both urban and rural areas;
- Supporting purchasing, distribution and in-store promotion of sustainably produced local food through the convenience store network;
- Evaluating the results of the project to demonstrate both economic gain to the producers and the community, and environmental benefits in the wider region; and
- Promoting lessons learned from the project through a variety of mechanisms including a web-site, trade media and a multi-stakeholder advisory group.

#### **Results**

The project will:

- Provide support for 15 supplier businesses and increase their turnover;
- Increase the proportion of sustainably produced local food in 6 participating shops and one symbol group;
- Help provide support for producers and retailers motivated by sustainability issues in areas where there is little or no brokerage support;
- Increase local food in public sector catering; and
- Help develop a commercially viable supply chain for good quality, 'green' local food.

## **Eat Somerset - Developing sustainable local food systems**

Eat Somerset promotes food systems that:

- Support local jobs and livelihoods;
- Contribute to thriving local economies;
- Protect the environment and wildlife;
- Avoid the depletion of natural resources; and
- Promote health and well-being amongst communities.

### **Eat Somerset's guiding principles**

Eat Somerset aims to:

- Promote local food – food traded between producers, processors, distributors, caterers and independent retailers in and around Somerset, Bristol and Bath;
- Promote fair trading practices, especially in support of small-scale food and farming enterprises;
- Reduce the use of fertilisers and pesticides, favouring produce from low-chemical farming such as certified organic and accredited LEAF Marque produce;
- Reduce food packaging and waste and encourage recycling, reusing and composting of it;
- Promote the use of energy-efficient vehicles and equipment;
- Guarantee high animal welfare standards, favouring organic, RSPCA Freedom Food certified and free-range animal and poultry products; and
- Promote good quality, fresh, seasonal and healthy food.

Please refer to [www.sustainweb.org](http://www.sustainweb.org) and [www.foodlinks.org.uk](http://www.foodlinks.org.uk) for full details of the Eat Somerset sustainability guiding principles (which are a work in progress).
